

# ORGANIC PANMOL® B-COMPLEX

www.PANMOL.com

*...the Mood-Makers*

## ACTIVE INGREDIENTS:

- **BIOLOGICALLY ACTIVE B-VITAMINS**

Organic PANMOL® B-COMPLEX is a complete complex of all B-vitamins. It is produced from quinoa sprouts from certified organic cultivation (COC quality). Unlike wheat, quinoa - the historical cereal of the Incas - is free from gluten. In contrast to synthetic vitamins, Organic PANMOL® B-COMPLEX contains not only the eight known vitamins of the vitamin B-group, but also a multitude of

organically bound and biologically active B-vitamins that are otherwise present only in high-quality foods such as whole-grain cereals or wheat germs. By comparison with whole grain the concentration of B-vitamins in Organic PANMOL® B-COMPLEX is a hundred-fold higher.

## TECHNICAL DATA:

- For capsules, tablets and oral powders
- For foods
- As vitamin flour not water-soluble

## POSSIBILITIES FOR YOUR INNOVATIVE PRODUCT:
