ACTIVE INGREDIENTS:

● BIOLOGICALLY ACTIVE VITAMINS

PANMOL® VITAMINS are a complete complex of all the vitamins essential for human beings. PANMOL® VITAMINS are produced from quinoa sprouts, acerola cherries, Blakeslea trispora, lichens and sunflowers and contain all the vitamins essential for human beings in plant form. Whilst synthetic vitamins consist of only 13 different substances, nature

offers dozens of variations of these valuable vital substances. PANMOL® VITAMINS contain all these plant vitamin compounds and all (!) essential vitamins are therefore contained in this plant complex.
